Total Quality Management

Paramount Health Care is universally respected among its clients for deliverance of quality products. The level of trust is a result of company elaborate quality control systems which ensure only the best raw material is used in making of ever product. Herbal ingredients are thoroughly analyzed to select the material of the highest grade and quality, in-process material maintains the right process parameters and the finished product is subjected to extensive quality control tests before it is packed.

Our Business Model

Contract Manufacturing/ Private Labelling

We have 20,000 square feet manufacturing unit in Islamabad with automated production line capable to manufacture tablets, capsules, ointments, syrups and powders. We have manufactured around 100 products under different private labels and have a global footprint in around 25 countries so far. We provide different outsourcing models according to the requirements of our clients.

How to get the Paramount HealthCare services ?

We will start to provide our services after receiving the sample or the description of the required product, your order volume and delivery timeline.

Our R&D team will formulate a sample according to your specifications or requirements.

A sample prepared on the lab scale will be forwarded to send you for review and comments along with our price quote for contract service. We can also provide you the list of ingredients upon request.

After the approval of the sample, place the order and we will deliver you as directed.

All returns must be made within 30 days from receipt of finished product. Returned products must be unused and in their original condition.
